

IN THE SPECIFICATION

Please replace the paragraph beginning at page 3, line 19, which starts with "In another embodiment of the invention", with the following amended paragraph:

In another embodiment of the invention, the receptacle case is substantially box-shaped, and includes four integrally attached side wall portions. In this box-shaped embodiment, a first side wall portion is provided for placement at the vehicle front end of the door pocket with a second said side wall portion attached to the first side wall portion and extending substantially transverse thereto. A third side wall portion is attached to the second side wall portion and extends substantially transverse thereto, parallel to the first side wall portion. A fourth side wall portion is attached to the third side wall portion and extends substantially transverse thereto, in a direction towards the first side wall portion, and with the gap formed between the first and fourth side wall portions.

Please replace the paragraph beginning at page 5, line 23, which starts with "As seen best in Figure 2", with the following amended paragraph:

As seen best in Figure 2, in the depicted embodiment, the door pocket 10 includes a front wall portion 12, an inboard longitudinal side wall portion 14, an outboard longitudinal side wall portion 15, formed by part of the door panel ~~P~~ DP, and a rear wall portion 16. The door pocket 10 has a hollow storage area 18 defined therein, to allow a user of the vehicle to store maps or personal items therein.
